## Summary

A **computer science graduate** seeking an entry-level role in the IT industry, eager to apply my skills and knowledge gained through my academic journey. Having a strong foundation in computer science and a passion for innovation, I am poised to make valuable contribution to a dynamic team.

## Key Skills

- Programming languages: Javascript, C++, Dart
- Development kits: Flutter/firebase, HTML/CSS, React, Nextjs, Nodejs
- Adobe XD
- Hardware and Networking
- Waterfall development methodologies
- Databases: MySQL, MongoDB
- Operating Systems: Windows, Linux
- IT support
- GIT (Version Control System)

## Recent Projects

- The Wall (social media application built with flutter)
  - A comprehensive project for a cross-platform social media app.
  - Users can post, edit and delete their posts.
- KJV bible App
  - Used shared preferences for data persistence
  - Created cross-platform application for reading the King James Version (KJV) of the Bible

## Work Experience

Mhub Malawi

July 2022 – August 2022

- Software Tester:
  - Maintained accurate methods of testing activities, results and defects.
  - Performed user acceptance testing (UAT) to ensure the software meets real world user expectations before deployment.
- IT Specialist – resolved issues co-workers had with their IT systems

## Education

**DMI-Saint John The Baptist University**

Bachelor of Science in Computer Science | Mangochi, Malawi | June 2020
